

GLOBAL CONFERENCE 2024

SHAPING A SHARED FUTURE

The Milken Institute Global Conference convenes the best minds in the world to tackle its most urgent challenges and realize its most exciting opportunities.

It is a unique experience in which individuals with the capital and influence to change the world connect with those whose expertise and creativity are reinventing health, finance, business, technology, philanthropy, industry, and society.

The 27th annual Global Conference will center on the theme of **Shaping a Shared Future**. Today, we face a series of critical issues, from the resurgence of geopolitical hotspots and a persisting climate crisis to the dichotomy surrounding artificial intelligence, considering both its promise and potential impact on global workers, firms, and markets. This year's flagship event will convene our catalytic community to address these challenges and harness the opportunity to collectively shape our shared future.

Join us as we reflect on the disruptions and innovations of the recent past and translate lessons learned into building meaningful, healthy, and prosperous lives for all.
